Whisky selling at yesterday's price and demand moderate. Corn quiet and steady. Wheat, fair demand and steady, with light receipts. Cotton quiet and unchanged. Rye in light demand. Barley quiet. Oats, only a small local demand. Gold weak at 102 1/2.

## WEATHER.

Probably fair and cooler for the next twenty-four hours.

## THE LATEST

## Drowned While Boating.

National Associated Press to the Star.  
BOSTON, Oct. 4.—T. R. Cooper, John P. Hunt and Charles H. Pierce were drowned while boating.

## Convent and Church Burned.

National Associated Press to the Star.  
DENVER, Oct. 4.—St. Studer's Hotel and the convent and church at Stanstead are burned. Loss, \$30,000; partly insured.

## Democratic State Convention.

National Associated Press to the Star.  
ALBANY, Oct. 4.—The Democratic State Convention reassembled this morning and admitted the entire Tammany delegation as chosen. The Convention appointed the usual committees and took a recess.

## Big Bank Scare.

National Associated Press to the Star.  
BOSTON, Oct. 4.—The Wellfleet Savings Bank at Cape Cod suspended yesterday, owing to a run on the bank and general panic on the Cape among Savings Bank depositors, and probably all the banks will close until confidence is restored.

## WASHINGTON.

Special to the Star.  
THE NEW REPUBLICAN JOURNAL.  
WASHINGTON, Oct. 4.—The new Republican journal, the National Union, made its first appearance yesterday morning. It is neatly printed, and gives promise of being a more efficient and respectable daily than has for years been published in Washington City. Mr. John Lynch, who is understood to be its principal stockholder and the ruling spirit, was a member of Congress from Maine some sessions since. He is a gentleman of conceded ability, experience and high character. He is honorably conspicuous by the fact that he was not then and is now not a follower of Mr. Blaine. The policy of the new paper will undoubtedly be favorable to Mr. Hayes' Administration. Yesterday's issue sharply criticized Mr. Conkling, and points out the shortcomings of the National Republican under its recent management. There are now three morning Republican dailies published here, and the question is, which will be the first to expire? They will not be a happy family.

## Secretary Evarts' Opinion of the South.

National Associated Press to the Star.  
WASHINGTON, Oct. 4.—Secretary Evarts, in speaking of his trip through the South with the President, remarked that it was extremely gratifying to observe the evidences of genuine good will which actuated the Southern people. He took occasion he said to converse freely with representative men at different points along the route, and found them unanimous in their disposition to co-operate in all measures to effect the perfect restoration of harmony throughout their section of the Union.

## The Visiting Indians

spent the greater portion of the day in driving around the city to see the various public buildings. Yesterday morning Secretary Schurz and Commissioner Haythield a short and secret pow-wow with them at their hotel, after which the Secretary presented to each Indian a

silver medal. At 8:10 o'clock last night the Indians left on their way to the West via New York. There they will stop over for a few days and be shown around and taken on a trip down the bay. Secretary Schurz is satisfied there will be no trouble with these Indians.

## Collector Arthur.

It can be stated on high authority that the Administration is so well satisfied with the conduct of Collector Arthur, of New York, in co-operating with the Treasury Commission for reforms in the Customs service at that port, and also with his general bearing, that it has been determined to tender him a foreign mission, one, which it is believed, he will accept.

## New York Custom-house.

It has been decided to make all the important appointments in the New York Custom-house some time next week.

## General Smith.

It is understood that General Smith, the present Chief of the Appointment Division of the Treasury, is to be tendered an important foreign appointment at an early day.

## Repairs to a Revenue Steamer.

The Secretary of the Treasury authorizes Collector King at New Orleans to have the necessary repairs done to the revenue steamer W. H. Seward on her arrival at that port.

## Collector King

has made an answer to the request of Secretary Sherman for more information relative to the five persons nominated by inspectors in the New Orleans Custom-house, and will take final action on the nominations within a few days.

## The Extra Session.

The opinion is expressed that the extra session will be of short duration. The business for which it is called being the Army and Navy deficiencies, will doubtless be concluded with little delay. An effort will be made to incorporate with the Army appropriations a proposition to increase the military establishment to the maximum number of forty thousand.

## The Annual Message

of the President and the Executive Reports will not be submitted until the regular session in December.

Correspondence of the Star.

WASHINGTON, Oct. 2, 1877.

The Committee to investigate the origin and cause of the late fire at the Patent Office is still busy at work, but is not ready to report.

## THE GRAVEST APPREHENSIONS

are felt that their report will occasion further investigation in a new line, which will blacken the reputations of prominent persons worse than the smoke has tarnished the white marble of the burnt building. To plain English the belief is rapidly gaining ground, that persons who have plundered the Government other than to destroy the recorded evidences of their guilt, which the Patent Office contained, and so set it on fire to destroy the books and papers. Everybody is anxiously awaiting the report of the Committee.

The attention of Hon. John Sherman has lately been called to the question whether there was not danger of a

## RAID ON THE VAULTS

of the Treasury being made, by organized robbers. Such bold and audacious crimes are being daily committed, even to the wrecking of railroad trains for plunder, that it has suggested the possibility of a lot of robbers, well armed and equipped, making a dash some night at the Treasury, when, if successful, they would scoop in their booty by the millions of millions, and commit the greatest burglary of the world.

The vaults are guarded, it is true, by armed men, but these guards are all weary men, tired soldiers, brave and worthy men, but not soldiers, but scarcely able to cope with the number of audacious robbers armed to the teeth and desperate. In view of the possibilities of dangerous assaults, and in order to make the guard unquestionably strong, the Secretary will soon transfer the crippled soldiers to other berths, and put on duty well disciplined body of suitable men. The Secretary may be unduly nervous, but a cunning and treacherous is better than a thousand pounds of cure.

## THE RECENT FORGERIES

at the Interior Department by Mr. Goodridge, as exposed on Saturday, are all talked about in departmental circles. It is said that Mr. Schurz, when told of the clerk's crimes and informed that there was a woman at the bottom of it, heaved a deep sigh and said: "Of course, it is most always so—and has been since Adam's day." It is not thought the amount of money which Goodridge obtained is very large, and the bungling way he managed his speculations show him to be a young hand in crime. He lives an interesting young family and a lovely wife to mourn his infidelity and his guilty crime against the law, for which the penitentiary will receive him for years. It is said that Secretary Schurz is considerably vexed by the constant succession of inquiries and frauds that are being unearthed in and about his Department. Their existence does not speak well for the reputation of his predecessors. We may add that Goodridge, the forger, has been held in \$12,000 bail in three charges, with ten more unheard as yet.

Randall and Sammy Cox have deferred their visit until the 5th, when the fun will begin. Quite a sprinkling of Southern Senators and members have already arrived and gone into winter quarters.

## Colorado Election.

National Associated Press to the Star.  
DENVER, Colo., Oct. 4.—The proposed amendment to the Constitution of this State, conferring the right of suffrage upon women, was defeated in Tuesday's election by a vote in the proportion of 5 to 1. Wilbur F. Stone was elected Judge of the Supreme Court without opposition. In this city the whole Republican ticket has been elected with the exception of one out of the six Aldermen. The Republicans also elected, by majorities ranging from fifty to two hundred, all county officers except the Coroner, whom the Democrats elected by a small majority.

Missouri papers report that figs and almonds mature in the open air in the southwestern portion of that State.

## NEW YORK CITY.

## Sharpe's Successor.

National Associated Press to the Star.  
New York, Oct. 4.—In the Custom-house yesterday it was asserted that Surveyor Sharpe's successor was to be Thomas C. Platt, the man who sustained Conkling at the Rochester Convention. It was also announced that General Arthur had tendered his resignation to the President.

## The Gilman Forgeries.

The extent of the Gilman forgeries will not exceed \$250,000, of which the American Exchange Bank will lose about \$65,000. The officers of the Atlantic Mutual Insurance Company say that all the certificates standing in Gilman's name have been traced, except three, and even if these are altered, the amount of the loss will only be increased by \$30,000.

## Queen's County Hunt.

The first trial of the recently imported Irish foxhounds, the property of a number of wealthy and enthusiastic lovers of out-door sport of this city, who have christened their association the "Queen's County Hunt," took place yesterday afternoon on the Hempstead Plains, L. I. The kennel comprises ten couple of Kildare hounds, a breed that has long been famous in Ireland for their superior hunting qualifications.

The meet to-day is a sort of preliminary to the first formal hunt, which will come off in two weeks, and was participated in by a number of our wealthy citizens. After the finish of the sport the gentlemen celebrated the event at the Garden City Hotel, where a long and pleasant weather continued favorable it is proposed to hunt twice a week. The Club will be governed by English fox-hunting rules.

## Alex. H. Stephens.

For hours the residence of A. J. Johnson was thronged, yesterday, by the friends and admirers of the old Georgia statesman, Alex. H. Stephens. Although excited to a painful degree by the malady which has afflicted him for years, the strength of a bright intellect and the triumph of a great will have for the time being overmastered the disease, and the speech of Stephens is as clear and strong as that of a man in full health.

## Miners Resume Work.

Delegates of miners from the mines of the Pennsylvania, Delaware & Hudson and Delaware, Lackawanna & Western Companies were to have left Scranton on a special train last evening for the purpose of having a joint conference with the several Companies in this city this morning and arranging terms for resuming work. The Pennsylvania miners determined to abandon the train. The others were compelled to follow their example.

## THE OLD WORLD.

National Associated Press to the Star.  
SULEIMAN PASHA COMMANDER.

LONDON, Oct. 4.—A dispatch from Constantinople says Mehemet Ali has been recalled, and Suleiman Pasha appointed to the command of the army of the Danube.

## TERRIBLE ACCIDENT.

A dispatch from St. Petersburg says a terrible accident had occurred to a railway convey of seven wagons which was crossing the River Don. The train contained a large number of Abchasian prisoners, who were chained together and were being transported to Siberia. Four hundred of them were lost.

## INCENSANT CANNONADING.

A dispatch from Bucharest says the heavy cannonade is incessant against the great Turkish redoubt opposite Gravitza. A fourth parallel has been completed, and an assault is imminent. A dispatch from Erzerum says a great battle opened on Tuesday near Alexandropol and was proceeding at the latest accounts. The Ottomans are claiming the advantage, while the Russians claim to have carried the key to Mekeur Pasha's position, thus annihilating his battalions and cutting off his retreat to Kars.

## ATTACK IMMINENT.

LONDON, Oct. 4.—A dispatch from Wednesday says the Russians, having pushed their fourth parallel close to the second Gravitza redoubt, an attack is expected in three days. Two brigades of riflemen and a strong force of cavalry were sent west to intercept the fresh columns which it is reported have already started for Orhan.

## CHEVREY PASHA

has been lately reinforced by the men from the Sulips Pass army, and has commenced a forward movement. A decisive fight with Osman Pasha's co-operation, is expected shortly. Prodigious quantities of munitions are going to the front.

## Louisville & Nashville Railroad.

National Associated Press to the Star.  
LOUISVILLE, Ky., Oct. 4.—The annual meeting of the stockholders of the Louisville & Nashville Railroad Company was held yesterday. The report of the President, Hon. E. D. Standiford, shows that the net earnings of the road for the year ending June 30 were \$1,675,841.50, surplus earnings \$640,937.18. The net earnings of the road for the year ending June 30 were \$1,675,841.50, surplus earnings \$640,937.18. The net earnings of the road for the year ending June 30 were \$1,675,841.50, surplus earnings \$640,937.18.

The report of Secretary W. Ranney shows the total cash of the Road to June 30, 1877, to be \$23,927,979, and its total resources \$31,056,386.69. The bonded debt is \$19,484,280. The election of Directors resulted in the re-election of Old Directors as follows: E. D. Standiford, H. V. Aldwell, W. H. Smith, H. B. Murrah, W. M. Farrington, G. J. Potter, G. H. Hulburg, James W. Hays and George R. Washington. Dr. E. D. Standiford was re-elected by the Directors as President, H. Victor Newcomb Vice President, W. Ramsey as Secretary, and A. N. Quarrier Assistant Secretary.

## John W. Young and His Wife.

National Associated Press to the Star.  
SALT LAKE CITY, Utah, Oct. 4.—John W. Young, the third son of the late prophet, Brigham Young, and one of the fourteen of twelve apostles who have

assumed control of the Mormon community, made his appearance here yesterday. The girl Anella Cobb, step-daughter of Brigham, who was on the 15th of September illegally married to John W. Young, at St. George, was in company with her polygamous husband.

This is the first appearance of the pair in public since their marriage, and they attracted considerable attention from both Mormons and Gentiles. John W. and his concubine really arrived in this neighborhood on Friday night last, and have been hiding at Young's farm, lying a short distance South of the city. The reason why they have now emerged from their place of concealment appears to be that the newly married couple have just learned there is no longer a warrant yet issued for John's arrest.

## Board of Foreign Missions.

National Associated Press to the Star.  
PROVIDENCE, R. I., Oct. 4.—The meeting of the American Board of Foreign Missions of the Congregational Churches was largely attended, fully two thousand five hundred persons being present at the session yesterday evening. The Treasurer reported an indebtedness of \$48,000, and Ex-Governor John B. Fiske, of Vermont, who was invited to preside, made the address. He made up on the spot, he himself subscribing \$5,000. The greatest enthusiasm was excited and in less than an hour the entire amount was obtained. The announcement of the last \$500 was received with the wildest applause.

## Score One More.

National Associated Press to the Star.  
PITTSBURGH, Oct. 4.—The Allegheny Savings Bank, of Allegheny City, suspended payment yesterday morning. Assets and liabilities not known yet, but the Directors hope to pay all depositors.

## An Ugly Charge.

National Associated Press to the Star.  
BALTIMORE, Oct. 4.—Wm. C. Schley, a prominent lawyer of this city, was arrested to-day on a charge of rape preferred by Lettie Fitzgerald, an orphan twenty years old, living as a domestic in his house. He was held in \$3,000 bail.

## Suicide of a Farmer.

Special to the Star.  
WASHINGTON, C. H., O., Oct. 4.—Doc. Hays, a well-to-do farmer of our county, hung himself this morning. Cause unknown.

## LYING IN A STRANGE STUPOR.

Volley, of Waterville, Me., aged twenty-two, was taken suddenly ill a week ago Sunday evening, and suffered great pain until midnight, when she sank into a deep stupor, in which she remained until 9:30 Thursday night, when she awoke, but still remains unconscious, not recognizing any one. In all this time she has not passed a word, except a very little from a spoon Sunday. Four years ago she had a similar spell, in which she remained forty-one hours. Spiritualists say that she is a strong medium.

## The Oxford (N. C.) Torchlight

states that Archie Gordon, a Revolutionary soldier, who has numerous descendants living in that county, was the father of twenty-seven sons by his wife, Caroline Gordon, seven of whom were born during twenty-four months.

## PRAIRIE-DOG VILLAGE.

Four hundred and thirty-five miles west of Omaha is situated the great Prairie-dog City, one of the largest settlements on the line of the Union Pacific Railroad. Several hundred acres, each side of the track, have been taken up by the sagacious little prairie-dogs, and there they have made their homes, and are now buying one lot from the company, or as much as saying "your leave." The dwellings consist of little mounds, from a foot to eighteen inches in height, raised by the dirt excavated by their burrows. On the approach of a train, the little inhabitants can be seen scampering from their homes. Arrived there, they squat upon their haunchs or stand upon their hind feet at the entrance—a hole in the top—barking at the train as it passes.

Should any one venture too near, down they go, and their city is as silent as the city of the dead." It is said that the opening in the top leads to a subterranean chamber connecting with the settlement, but this is a mistake. The prairie dogs are of a sandy-brown color, and about the size of a large gray squirrel. In their nest, lying with them, are found the owl and rattlesnake, though whether welcome or not is uncertain. He lives upon grasses and some, Mexican especially, considered good eating, as his flesh is sweet and tender, though rather greasy. Wolves prey on the little fellows, and may be seen sneaking near the town, hoping, by chance, to pick up some straggler. But the dogs are not easily caught. Some one is always on the lookout for intruders, and gives the alarm on the first intimation of trouble. Then away they all scamper to their holes.

## AN EXCITING ADVENTURE WITH ESCAPED SEA LIONS.

An exciting scene was witnessed in the aquarium at the winter gardens at Southampton, England, the other evening, owing to the escape of one of the large sea lions. The two specimens which are now on view in the aquarium have been kept in late quarters of the seals, where a hollow is formed by the arrangement of rockwork, on the top of which are iron railings. After the visitors had departed the other evening the sea lion, leaving the hollow in her den, scrambled up the rockwork and cleared the iron railings with a bound. Fortunately some of the attendants happened to be about, and they immediately informed the caretaker, who, appearing on the scene, found the runaway with both his fore flippers resting on the handrails of one of the show tanks—the saliva running freely from his mouth—surveying with evident relish the cooling and other fish swimming in it. The securing of him was not a little difficult matter, seeing that it was not advisable to use force considering the rarity of the creature and the probability of injuring it. A portion of the iron railing was taken down in order that he might the more readily be driven again into his pond. One man was stationed there armed with a large broom to prevent the lioness from following her companion's example. An exit door is situated near to the pond, by which the attendant was to escape if they succeeded in driving the runaway back. Four men with

nets then proceeded in the direction the sea lion had taken, and when within ten yards he turned quick around and bolted after the men, at the same time making his large teeth most conspicuous. Although they had nets the men ran in all directions, seemingly satisfied that he was more than a match for them. A thought then occurred that he might be secured by ropes, as undoubtedly he had been lassoed off the California coast. A large coil of rope was procured and was thrown over his head. No sooner did he feel the rope than he made off towards his pond with all possible speed, with the aquarium staff yelling behind him. Once again in the pond, no pains were spared to make the place secure.

## LATEST LOCAL.

The alarm from Box 137 to-day was occasioned by the burning of a chimney on Linn and Everett streets.

The Independent Irish-American Citizens' meeting will take place at Hopkins Hall to-night. Gen. Wm. G. Halpin, Hon. John J. Gaghan, Gov. Thomas L. Young and other able speakers will address the meeting.

GEN. GEO. A. SHERIDAN and Hon. Stanley Matthews will address the citizens of Cincinnati at the Republican mass meeting to be held at the Sixth-street Market-space this evening, October 4. Gen. Sheridan is one of the ablest speakers of his country, and a good attendance should be insured.

MR. FRANK H. JACOB, son of Mr. Jacob, the carriage manufacturer, was married yesterday at 9 o'clock A. M., during high mass at St. Francis' Church, corner of Vine and Liberty streets, to Miss Carrie L. Holman. A reception was given in the evening at the residence of the bride's parents, No. 11 O. chard street. Success be ever with the happy couple.

## Our Boys Defeated.

The rifle contest between the Champion City Guards, of Springfield, O., and the Lytle Greys, this morning,
